

HOCKLEY

VALLEY RESORT

About Us

Hockley Valley Resort is a beautiful four-season resort located in the Hills of Headwaters, in the heart of some of Ontario's most picturesque countryside.

Purchased in 1985 the 300-acre property was beautiful and close to Toronto, but the facilities were in ruin, as the existing 28-room hotel had been poorly maintained for years.

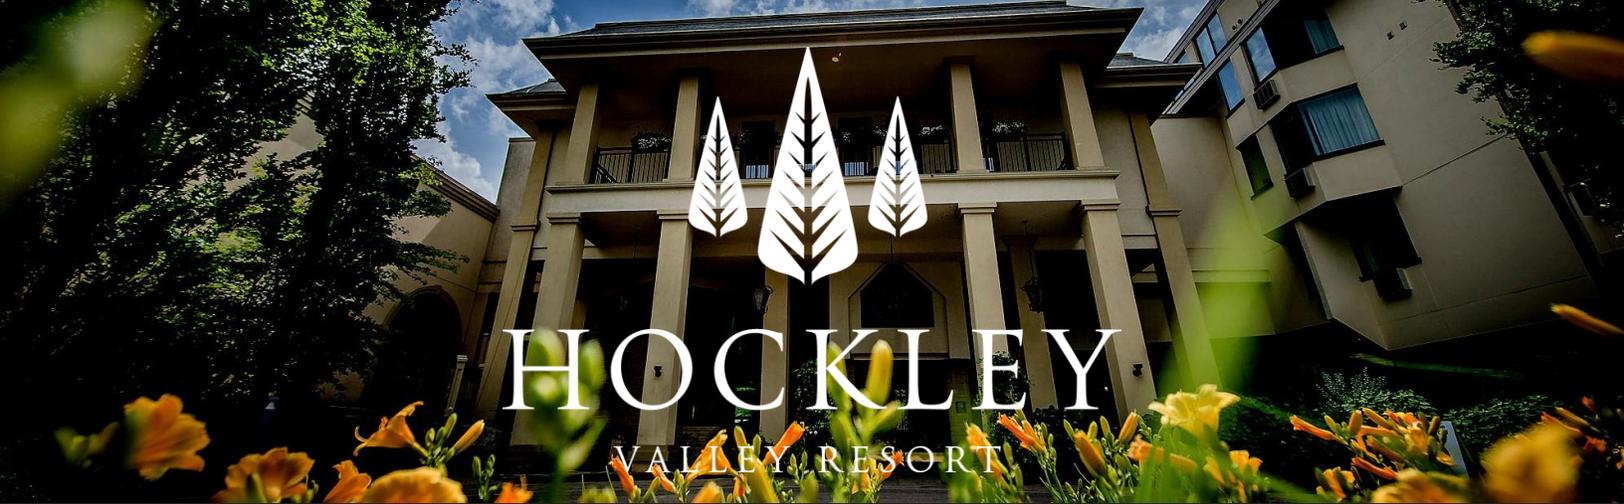

Over the years, the resort has undergone numerous renovations and upgrades. The completion of Phase 2 of the development program dramatically improved the resort's offerings. With the opening of the championship golf course, the opening of 76 Deluxe Resort Suites in the tower wing, an 8,000 sq.ft Spa, the addition of the signature restaurant cabin, the property had been fully converted into a luxurious four-season conference and resort destination.

The Spa, inspired by the scenic surroundings, has an extensive menu, including seasonally-inspired treatments. Natural and organic textures, rich colours, rustic woods and large windows adorn the space, so guests can view the hills and countryside in an environment of peace and tranquility.

A full-time gardener takes care of the four-acre fruit and vegetable garden that supplies 80 percent of the produce for the resort's restaurants. True to the resort's culinary philosophy and sustainability, it supports local farmers, producers and artisans utilizing as much local fare in the restaurants as possible.

A short drive from the GTA, the resort is well known for its amenities to the corporate and leisure guest and weddings and special events are held year round.

Today, Hockley Valley Resort features 104 luxury rooms and suites, 14 meeting rooms, an 8,000 square foot full-service spa, a championship 18-hole golf course, and 15 scenic ski and snowboard runs for all levels, including an upper and lower freestyle terrain park and magic carpet.

HOCKLEY

VALLEY RESORT
