The tools he used to find success in his adventures are relevant for teams to achieve high performance in the workplace. Scott wears three hats in his inspiring keynotes; international adventurer and guide, inspiring storyteller, and leadership and team training facilitator with 20+ years experience and education.

LEARNING IN Thin Air KEYNOTE

Scott is the 51st Canadian to summit Mount Everest and the 18th Canadian to climb the 7 Summits.

When Scott engages his audiences with his audacious tales from his Everest climb where challenge and change were abundant, he seamlessly ties the stories into reaching professional and personal goals. Scott's high energy and passionate delivery demonstrates that the tools he used to find success in the mountains are relevant for teams to achieve high performance in the workplace.

ACHIEVE THE Outrageous KEYNOTE

Are you striving to achieve a big goal? As Scott Kress was skiing with his team 1000km unsupported across Antarctica to the South Pole, he was thinking to himself, "this is pretty outrageous".

In this engaging and insightful presentation, you will learn all about trekking to the South Pole, but more importantly the 7 lessons that Scott used to achieve this outrageous feat which include insights into goal setting, overcoming adversity, perseverance, and so much more.

KEYNOTE Workshop

Take either one of Scott's two keynotes and turn a one way presentation into an interactive workshop.

After consultation regarding your group's learning goals, Scott will share one of his keynotes. Along the way, Scott will stop the story and allow for small group discussions and deeper learning on various leadership models and questions based on the most relevant leadership topics and challenges your team faces. Personal action plans help to further the learning.

Training & Development Workshops

Summit training workshops start off experientially to demonstrate the exhilaration found in great teamwork, followed by an understanding of how and why it is essential to focus on team performance. Then, using easy to apply tools and strategies, we teach teams how to gain commitment, build trust, communicate effectively and, of course, get results.

EMOTIONAL Intelligence

Much of a person's success is based on their ability to be in touch with, monitor, and effectively manage their responses to a variety of interpersonal interactions. Understanding where we have healthy, under-functioning or even over-functioning qualities in various EI scales is the first step in becoming a more effective leader.

Myers-Briggs® TYPE INDICATOR

Do you have differences that split your team? Do you find that you communicate quite easily with some people and have to make a real effort with others? We all have different personality styles that create these situations. Understanding your personal type and the types of others is critical in driving effective interpersonal interactions.

OVERCOMING FIVE TEAM Dysfunctions

Building an effective team takes commitment and a deliberate, thoughtful approach from everyone involved. This workshop, based on the elegant and simple model described by author Patrick Lencioni provides an excellent framework for developing a high performance team.

HIGH Performance TEAMWORK

Do you have a newly formed team or one that is simply looking for a tune-up? In this session you will experience high performance teamwork, understand its value and know how to intentionally achieve it at work.

EFFECTIVE Leadership

Developing effective leaders is a deliberate and ongoing process. This program will inspire participants to set a compelling personal leadership vision, help them to assess their current reality and give them the tools they need for success.

NAVIGATING Change

Is your team struggling to keep up with the rapid pace of change? In this workshop, we explore the link between our need for innovation and the challenge of coping with the natural responses change inevitably causes.
